EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Juettner on December 15, 2003.

The application has been amended as follows:

In the specification, page 7, line 5, "80" has been changed back to --90--.

In the specification, page 7, line 6, "120" has been changed back to --140--.

In claim 37, line 3, "80" has been changed to --90--.

Claims 51-52 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The instant claims are allowable over the prior art of Saito et al. (US 6,217,166) in response to Applicant's arguments that the heating step in Saito et al. at a temperature of 40 C does not "cook" the coating or form PVOH-boric acid-PVOH bonds or a three-dimensional sieve or screen for holding ink pigment on the screen and facilitating penetration of ink carrier vehicle to the substrate for absorption by the substrate. In addition, it is noted that the prior art of Saito et al. comprises a paper substrate having a polyethylene layer thereon which would prevent penetration of the ink carrier vehicle to the absorbent paper substrate. Applicant's arguments on

page 17 are convincing that removing the polyethylene layer of Saito is contrary to Saito et al.'s teaching.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
